About Sprint (PA) 00:

- General:
 - Each team member researches different languages and frameworks that could be used for the project, so we can collectively decide on the most suitable ones.
 - Finalized the core concept for Jobora – a streamlined recruitment platform designed to efficiently connect the right candidates with the right opportunities. The platform aims to optimize the hiring process by enhancing matching accuracy and reducing time-to-hire.
 - Set up tools: Messenger, Jira, GitHub, Google Drive
- About the project proposal: The Jobify project proposal was built from ideas contributed by all four team members. After agreeing on the main concept, we divided the proposal into four parts, and each member was responsible for writing one section:
 - 23127211 - Nguyễn Lê Hồ Anh Khoa:
 - Introduction.
 - Target user and environments.
 - 23127040 - Bùi Minh Duy:

- Key features for candidates.
 - 23127254 - Nguyễn Thị Như Quỳnh:
 - Key features for recruitments.
 - 23127524 - Hình Diễm Xuân:
 - Key features for moderators and admins.
- About Team Contract: Our team will create a team contract to agree on everyone's roles, responsibilities, how we communicate, and how we solve problems so that we can work well together during the project.
